Steve-

I am back very late Monday night, and have a meeting with CDOT at Silver Plume on Tuesday at 9 am. After that, I am available and request a meeting to discuss the situation. It might be a good idea if Mr. McGrath might be available for this meeting as well.

For San Juan Corp.,
Todd C. Hennis, Pres.

Todd - I am out of the area (OR). One thing we're looking at is temporary treatment/settling ponds at Gladstone. The flow is substantially higher from the GK than before- so additional retention capacity is needed than the R n B.

I will be back in Silverton next week, and driving this weekend.

Steve
